

What makes

The Southern different?

The operating profits of The Southern has resulted in the ability of the Squash Rackets Association of SA Inc to promote and develop squash and racquetball in South Australia since the mid 1990's. The funding provided by the Southern has enabled the Association to host major events, financially assist junior teams to compete interstate and provide a pathways program with little or no cost to the kids involved.

The Southern is also dedicated to supporting other local sporting and community clubs through sponsorship and by offering an affordable place for groups to meet.
